Hey Benjamin,

I've added code for

1. AE and plotting graph for AE
2. FCBF
3. INTERACT code downloaded from authors site to be used in WEKA (<http://www.public.asu.edu/~huanliu/INTERACT/INTERACTsoftware.html>)

This is the official site of WEKA:

<https://www.cs.waikato.ac.nz/~ml/weka/downloading.html>

I downloaded the software from Source Forge:

<https://sourceforge.net/projects/weka/>

Consistency based feature selection is a part of WEKA software so I don't have a separate file for it.

Regards,
Sayema
